CHAPTER 1

Understanding

Human-Centered Design 1

What Is Human-Centered Design? 2

Design Thinking Models 5

Our Design Thinking Process 14

Design Thinking Is the First Step 19

How Are Products Built? 20

How Do We Implement

Our Products? 20

Waterfall: A Linear, Phased

Work Stream 21

Agile: An Iterative, Continual Process 24

Hybrid: A Combination of the Two 27

Which Process Is Good for

Your Projects? 28

What Is User Experience, or “UX”? 30

UX Is Usercentric 31

UX Is More Than a Screen 32

UX Is All Around Us 33

The Basic Elements of UX 34

UX Touches Many Disciplines 37

The UX Triad 39

UX Incorporates All Elements of

an Experience for All People 40

What Is UI? 41

Different UI, Same Problem to Solve 42

The Basic Elements of UI 45

Typography 47

Images 48

Icons 49

Layout 50

UI Is a Part of UX 51

Cognitive Overload 52

What Is Cognitive Overload? 52

Cognitive Load Theory 53

Examples of Cognitive Overload 55

Reduce Cognitive Overload for

Your Users 61

Let’s Work Together! 62

CHAPTER 2

Using Empathy as a Design Tool 63

Types of Research 64

Behavioral vs. Attitudinal 65

Qualitative vs. Quantitative 67

The Research Landscape Chart 68

Stages of Design Research 69

Research Is an Ongoing Process 75

Surveys 75

What Is a Survey? 76

Survey Question Types 77

Survey Best Practices 80

Recruiting Participants 82

Survey Example 84

Let’s Do It! 86

Preparing for User Interviews 87

What Is a User Interview? 88

How Do You Start Preparing? 88

Question Quality 91

How Can You Structure the Script? 93

Prepare Beforehand for a Smooth,

Well-Structured Interview 96

Let’s Do It! 96

Conducting User Interviews	97
Finding Participants	97
Interviewing Your Participants	99
After the Interview	102
Let's Do It!	102
Affinity Mapping	103
What Is Affinity Mapping?	103
Affinity Mapping Process	104
Let's Do It!	107
After You Empathize, You Define	108

CHAPTER 3

Defining the User's Problems

Where Are You in the Design

Thinking Process?	110
Personas	111
What Is a Persona?	111
How Do You Make Personas?	118
Personas Help You Define Who	
You're Designing For	118
Let's Do It!	119

User Journey Mapping

What Is a User Journey Map?	120
How Do You Make a User	
Journey Map?	126
User Journeys Help You Understand	126
Let's Do It!	126

The Problem to Solve

How Do You Use a Problem	
Statement?	128
How Do You Make a Problem	
Statement?	130
A Great Problem Statement Is	
Challenging but Powerful	135
Let's Do It!	135

Competitive Research

What Is Competitive Research?	136
SWOT—Strengths, Weaknesses,	
Opportunities, Threats	138
Internal Factors	138
External Factors	140
Lightning Demo	143
How Do You Do It?	144
How Do You Do It Well?	149
Competitive Analysis	149
Apply the Right Technique for	
the Right Question	155
Let's Do It!	155
After You Define, You Ideate	156

CHAPTER 4

Exploring Ideation Techniques and Tools

Where Are You in the Design

Thinking Process?	158
Ideation	159
What Is Ideation?	159
When Could You Ideate?	160
What Types of Ideation Exist?	161
What Are Some Ideation	
Best Practices?	163
Using Ideation in the Design	
Thinking Process	165

Conceptual Ideation

What Is Brainstorming?	166
How Do You Brainstorm?	166
How Do You Brainstorm Well?	170
When Should You Avoid	
Brainstorming?	172

Brainstorming Is the Quintessential Ideation Technique	172
Let's Do It!	172
Visual Ideation	173
What Is Sketching?	173
Why Do You Sketch?	175
How Do You Sketch?	176
Crazy 8s	179
Visual Ideation Gives Ideas	
More Definition	181
Let's Do It!	181
Relational Ideation—New Ideas	182
Out of Existing Concepts	182
Mind Mapping	182
SCAMPER	185
Let's Do It!	191
Prioritization	192
What Is Prioritization?	192
Dot Voting	192
MoSCoW Method	194
Cars Method	195
Conclusion	198
Let's Do It!	198
After You Ideate, You Prototype	198

CHAPTER 5

Prototyping Solutions..... 199

Where Are You in the Design	
Thinking Process?	200
Prototyping	201
What Is a Prototype?	202
What Types of Prototypes Exist?	204
What Tools Can Help	
You Prototype?	206
Choose the Right Tool for	
the Right Fidelity	207
Task Flows	208
What Is a Task Flow?	208
Why Use Task Flows?	210
How Can You Construct a Task Flow?	211
Apply Task Flows to the	
Prototype Step	212

Task Flows Make Prototyping	
Easier	213
Let's Do It!	214
Wireframes	215
What Is a Wireframe?	215
Low-Fidelity Wireframes	216
Mid-Fidelity Wireframes	221
High-Fidelity Wireframes	225
High Fidelity Represents the	
Final Product	231
Let's Do It!	231
When to Use Which Fidelity	231
Let's Do It!	234
After You Prototype, You Test	234

CHAPTER 6

Testing Your Designs 235

Where Are You in the Design	
Thinking Process?	236
Testing	237
What Is Usability?	237
What Are the Elements of Usability?	241
How Do You Evaluate Usability?	243
Usability Testing—Plan and Define	244
What Is Usability Testing?	244
Creating a Test Plan	247
Defining the Test Metrics	252
Tracking Common Metrics	253
Starting with Your Goals	254
Let's Do It!	254
Usability Testing:	
Recruit and Conduct	255
How Many Users Should	
You Test With?	255
Where to Find Users	256
Preparing Your Script	258
Framing the Session	259
Usability Testing Makes	
Things Better	261
Let's Do It!	261

Usability Testing: Analyze Results.	262
Scoring Scales	263
Stoplight Chart	264
Pull Quotes	265
Analyze and Summarize	
Your Results	266
Let's Do It!	266
Usability Testing: Presenting Findings.	267
Why Should You Share	
Your Results?	267
How Can You Share Testing	
Results?	268
Presentation	270
Share Your Test Results	273
After You Test, You Implement	274

CHAPTER 7

Implementing Your Designs 275

Where Are You in the Design

Thinking Process? 276

Implement 277

User Stories 278

What Is a User Story? 278

How Do You Create User Stories? 280

How Do You Prioritize

User Stories? 282

User Stories Give Implementation

Structure 284

Let's Do It! 284

Flow Charts 285

What Is a Flow Chart? 285

What Is a Task Flow? 286

What Is a User Flow? 287

What Is a Wireflow? 291

Which Flow Chart Should

You Use? 292

Flow Charts Facilitate

Implementation 293

Let's Do It! 293

Style Guides 294

What Is a Style Guide? 294

What Goes into a Style Guide? 295

Style Guides Portray Your Brand 299

Let's Do It! 299

Practice It! 299

Design Systems 299

Designing for Consistency

and Scalability 300

What Is Atomic Design? 301

How Can You Make a

Design System? 306

What Systems Can You Look

at Today? 307

Design Systems Improve

Implementation 310

Let's Do It! 310

Delivering Designs 311

Delivering Your Designs 311

How Should You Structure

Your Content? 313

How Should You Organize

Your Screens? 314

Provide Specifications and Context 318

Let's Do It! 318

The End of the Process? 319

CHAPTER 8

What's Next? 321

Writing a Case Study 322

What Is a Case Study? 322

Show Your Process 323

Tell a Story 326

Design for Non-Readers 328

Communicate Through Images 331

Demonstrate Expertise with

Case Studies 332

Creating Your Portfolio 333

Highly Visual, Emphasis

on the Work 333

A Bare-Bones, Personal

Digital Presence 335

A Customized, Curated

Experience 336

Going All Out 337

But I Don't Want to Make a Website	339
Where Should I Put My Portfolio?	341
Giving Feedback	341
How Do You Provide Feedback to a Designer?	342
What Is a Critique?	343
Ask Clarifying Questions	344
Provide Context, Not Just Opinion ...	345
Offer Exploratory Questions	345
Talk About the Good	346
Putting It All Together	347
Receiving Feedback	348
How Do You Receive Feedback as a Designer?	348
Describe the Situation	348
Set Expectations	349
Ask Clarifying Questions	350
Summarize	350
Don't Take It Personally— It Doesn't Have to Be Scary	351
Working with Other Disciplines	351
Working with Engineering	352
Working with Product	355
Working with Leadership	357
Working with Others	360
Choosing a Role in the Industry	360
Product Designer—Do It All	360
UX Designer—Focus on the Structure	362
Visual or UI Designer— Make It Look Good	363
UX Researcher—Become an Expert on Your Users	364
UX Writer—Craft the Perfect Copy ..	365
Design Systems Designer— Unify and Scale Your Product	365
Motion Designer— Create Stunning Animations	366
Grow Your Career in Design	367
Where Do You Go from Here?	368
Appendix: What Good Looks Like	369
