Acknowledgments xiv

1 Introduction to Nutrition 1

Introduction 1

Why Is Nutrition Important and What Is a Healthy Diet? 2

Nutrition and Food Terms to Know 4

Why Do You Eat the Foods You Do? 9

Kcalories and Nutrients 16

What Happens When You Eat? 21

Sustainable Food Systems 24

Finding Reliable Nutrition and Health Information 30

2 Using Food Guides, Dietary Recommendations, and Nutrition Labels to Plan Menus 36

Introduction 36

MyPlate 39

2015–2020 Dietary Guidelines 48

Nutrition Labels on Packaged Goods and Restaurant Menus 53

Planning Menus Using MyPlate and the Dietary Guidelines for Americans 62

3 Carbohydrates 66

Introduction 66

Sugars 67

Starches and Fibers 74

Whole Grains 78

Carbohydrates in the Body and Choosing Healthy Carbohydrates 82

Culinary Focus: Whole Grains and Legumes 85

4 Fat 97

Introduction 97

Fats in Foods 98

Fatty Acids 101

Essential Fatty Acids, Omega-3 Fatty Acids, and Cholesterol 107

Fats in the Body 110

Dietary Recommendations 111

Culinary Focus: Dairy and Eggs 116

5 Protein 125

Introduction 125

Protein in Food 126

Protein in the Body 129

Vegetarian Eating 131

Dietary Recommendations for Protein 138

Culinary Focus: Meat, Poultry, and Fish 141

6 Vitamins 151

Introduction 151

Basics of Vitamins 152

Vitamin A 154

Vitamin D 156

Vitamin E 159

Vitamin C 161

Thiamin, Riboflavin, and Niacin 163

Vitamin B₆ 164

Folate and Vitamin B₁₂ 166

Dietary Supplements 169

Culinary Focus: Fruits and Vegetables 172

7 Water and Minerals 185

Introduction 185

Water 186

Beverages and Caffeine 188

Basics of Minerals 194

Calcium and Phosphorous 195

Magnesium 198

Sodium 200

Potassium 206

Iron 208

Zinc and Iodine 211

Culinary Focus: Nuts and Seeds 213

8 Building Flavor and Balanced Baking 222

- Introduction 222
- Ingredients 223
- Preparation Techniques 239
- Cooking Methods 243
- Putting It All Together 251
- Balanced Baking 253

9 Recipe Makeovers 262

- Introduction 262
- Basics for Modifying Recipes 264
- Appetizers and Entrées 266
- Sauces and Dressings 281
- Desserts 286
- Gluten-Free Baking 289

10 Balanced Menus 297

- Introduction 297
- Balanced Menu Basics 298
- Appetizers, Soups, and Salads 301
- Entrées, Sauces, and Side Dishes 312
- Desserts, Breakfast, and Breaks 321
- Presentation 329

11 Handling Customers' Special Nutrition Requests 337

- Introduction 337
- Low Kcalorie or Low Saturated Fat Requests 339
- Low Sugar or Low Sodium Requests 343
- Food Allergies 349
- Gluten Free 356
- Low Lactose or Vegetarian Requests 360

12 Weight Management 368

- Introduction 368
- Basics of Weight Management 369
- How to Lose Weight 371
- Weight-Loss Myths 385

13 Nutrition for All Ages 390

- Introduction 390
- Nutrition and Menu Planning for Children 391
- Nutrition and Menu Planning for Adolescents 399
- Fighting Childhood Obesity 401
- Nutrition and Menu Planning for Older Adults 409
- Eating Disorders 414
- Nutrition and Menu Planning for the Athlete 417

Appendix A. Serving Sizes for MyPlate Food Groups and How to Count Oils and Empty Kcalories 425

Appendix B. Dietary Reference Intakes 433

Appendix C. Answers to Odd-Numbered Questions in Check-Out Quizzes 439

Glossary 445

Index 450
