Image Usage Guidelines	99
Summary	100

Chapter 7: Creating a Target Tracking Effect	101
What Is Target Tracking	101
Selecting an Ideal Target	102
Target Quality	102
Flat Targets	103
Easily Viewable Targets	104
Planning Out a Target Tracker Project	104
Setting Up a Target Tracking Effect	105
Adding a Target Tracker	105
Particle Systems	108
Adding a Particle System	109
Positioning a Particle System	110
Customizing a Particle System	112
Working with 3D Assets	116
Finding 3D Assets	117
Customizing 3D Assets	117
Target Markers	121
Creating a Target Marker	121
Target Marker Interactivity	126
Effect Instructions	130
Previewing Target Tracking Effects in the Simulator	132
Testing Target Tracking Effects	133
Preparing the Test in Meta Spark Studio	133
Preparing the Target	134
Experiencing the Target Tracking Test	135
Summary	138

Chapter 8: Creating an Augmented Reality Game.....	139
Planning Out a Game Project	139
Game Project Setup	141
Simulator Touch Settings.....	142
Simulator Cameras	143
Creating the Game Environment	145
Creating a Playable Character.....	152
Adding Animated Textures	153
Tracking User Movement.....	156
Creating an Objective.....	161
Initiating the Game	164
Changing the Objective's Position	165
Creating an Enemy Character	167
Changing the Enemy's Position	170
Keeping Score.....	173
Creating User Interface Elements.....	173
Adding Text	176
Creating a Counter.....	179
Ending the Game.....	183
Creating a Game Over Screen	183
Calculating Game's End	186
Restarting the Game	188
