## Part 1 Introducing human nutrition

1 Introduction 3
   A. Stewart Truswell and Jim Mann

## Part 2 Energy and macronutrients

2 Carbohydrates 13
   John Cummings and Jim Mann

3 Lipids 40
   C. Murray Skeaff and Jim Mann

4 Protein 60
   Alan A. Jackson and A. Stewart Truswell

5 Energy 82
   Andrew M. Prentice

6 Alcohol 98
   A. Stewart Truswell

## Part 3 Organic and inorganic essential nutrients

7 Water, electrolytes, and acid-base balance 113
   Andrew Bahn

8 Major minerals: calcium and magnesium 131
   Helen Lambert, Ohood Hakim, and Susan A. Lanham-New

9 Iron 149
   Patrick MacPhail

10 Trace elements 165
   10.1 Zinc 165
      Samir Samman
   10.2 Copper 170
      Samir Samman
   10.3 Iodine 172
      Sheila Skeaff and Christine D. Thomson
Part 5 Nutrition-related disorders

20 Overweight and obesity
   Stephan Rössner

21 Protein-energy malnutrition
   A. Stewart Truswell

22 Nutritional crises
   Claudine Prudhon and Jacqueline Prize

23 Cardiovascular diseases
   Jim Mann and Rachael McLean

24 Nutrition and cancer
   Kathryn E. Bradbury and Timothy J. Key

25 Diabetes mellitus and the metabolic syndrome
   Jim Mann

26 The eating disorders: anorexia nervosa, bulimia nervosa, and OSFED
   Hannah Turner and Robert Peveler

Part 6 Nutritional assessment

27 Food analysis, food composition tables, and databases
   Philippa Lyons-Wall

28 Dietary assessment
   Jim Mann

29 Assessment of nutritional status and biomarkers
   A. Stewart Truswell

Part 7 Life stages

30 Pre-pregnancy, pregnancy, and lactation
   Annie S. Anderson

31 Infant feeding and eating well for young children
   Helen Crawley

32 Childhood and adolescent nutrition
   Anne-Louise Heath and Rachael Taylor

33 Nutrition and ageing
   Lisette de Groot, Wija van Staveren, and Caroline Horwath
Part 8  Changing food habits

34  Food habits
    A. Stewart Truswell and Helen Leach

35  Nutritional recommendations for the general population
    A. Stewart Truswell

36  Public health approaches to implement dietary recommendations
    Susan A. Jebb

37  Dietary patterns
    C. Murray Skeaff

38  Food systems: challenges and ways forward
    Wilma Waterlander and Boyd Swinburn

39  Nutrition, the environment, and sustainable diets
    Pamela Mason and Tim Lang

Part 9  Applications

40  Sports nutrition
    Louise M. Burke

41  Nutritional consequences of poverty and food insecurity in developed countries
    Winsome R. Parnell

42  Food in hospitals
    Suzie Ferrie
